Transforming Health, Empowering Science for a Healthier Future

At BioGrad we are on a mission to improve healthcare outcomes for individuals and communities through the provision of affordable and accessible medical solutions, especially in areas such as women's health, cell-based therapies and related health conditions.

Located at our Human Tissue Authority licensed facilities in Liverpool, our ethically approved Research Tissue Bank offers scientists around the globe access to valuable biological samples, fostering collaboration between donors, clinics, and researchers.

In doing so we support innovation in medical solutions and the advancement of research, all toward creating a healthier, more empowered future.

Global Access and Broad Consent Model

Through our broad consent model, BioGrad offers global access to samples within our Research Tissue Bank.

Researchers who already hold local ethical and regulatory approvals for the use and storage of human tissue can access these samples directly through our commercial distribution channels.

Our Research Programme

At BioGrad, we specifically support UK researchers focused on advancing women's health, cell-based therapies, and related disease research.

We offer the option to extend NHS ethical approval to your project, alongside access to our samples and data of interest.

Applications are reviewed monthly by our Internal Ethics Committee.

Ethical and Legal Considerations

BioGrad samples are intended for academic or commercial biomedical research, including the development of research questions, assays, test kits, and medical devices.

They can also be used for commercial product testing, training, or quality assurance purposes. However, they cannot be used for human treatment, reproductive cloning, or any use prohibited by law.

Our broad consent framework includes provisions for genetic testing of samples, with optional consent for the use of samples in animal research. If your project requires animal research consent, please contact our team to ensure full compliance.

Sample Availability and Custom Solutions

Whether you need stored samples ready for immediate shipment or on-demand collections, BioGrad provides comprehensive support to meet your research needs.

Ready-to-Ship Samples: Available for purchase directly from BioGrad or through one of our local distribution partners and accompanied by basic sample associated information including donor age, sex and ethnicity.

Prices vary based on sample type and our team can help you with a quotation.

Bespoke Collections: For specific research projects requiring extended donor information or biodata, please contact our team for a tailored quote.

Human Umbilical Cord, Serum, Plasma and Fresh Products

Product Category	Description (Single Donor Unit)	Product Code	Regulatory Status	Sample Type	Volume	Price
Serum	Human Serum Umbilical Cord Blood Frozen	BIO-CBH-SER-1mL	ROU, BBV Tested	Serum STT II	1 mL	£43.76
		BIO-CBH-SER-5mL	ROU, BBV Tested	Serum STT II	5 mL	£218.80
		BIO-CBH-SER-Custom	ROU, BBV Tested	Custom quote required		
Plasma	Human Plasma Umbilical Cord Blood Frozen	BIO-CBH-PLA-K2E-1mL	ROU, BBV Tested	Plasma K2EDTA	1 mL	£42.13
		BIO-CBH-PLA-K2E-5mL	ROU, BBV Tested	Plasma K2EDTA	5 mL	£210.65
		BIO-CBH-PLA-CPD-1mL	ROU, BBV Tested	Plasma CPD diluted	1 mL	£9.60
		BIO-CBH-PLA-CPD-5mL	ROU, BBV Tested	Plasma CPD diluted	5 mL	£48
		BIO-CBH-PLA-Custom	ROU, BBV Tested	Custom quote required		
Fresh Cord Blood (Cold 24hours)	Human Fresh Umbilical Cord Blood	BIO-CBH-Fresh	ROU	K2EDTA or CPD	~30-40 mL	£960

All samples shipped on dry ice as standard. HTA & REC approved, research use only.

Human Peripheral Blood Products

Product Category	Description (Single Donor Unit)	Product Code	Regulatory Status	Sample Type	Volume	Price
Plasma	Human Plasma Peripheral blood Frozen	BIO-PBH-PLA-SH-1mL	ROU, BBV Tested	Ficoll-isolated plasma	1 mL	£2.93
		BIO-PBH-PLA-SH-5mL	ROU, BBV Tested	Ficoll-isolated plasma	5 mL	£13.61
		BIO-PBH-PLA-SH-25mL	ROU, BBV Tested	Ficoll-isolated plasma	25 mL	£34.49
Fresh Peripheral blood	Human Fresh Peripheral blood	BIO-PBH-Fresh	ROU	Fresh	Up to 75 mL	£88
Plasma	Human Plasma Peripheral blood Frozen	BIO-PBH-PLA-K2E-1mL	ROU, BBV Tested	Plasma Single Donor unit	1 mL	£6.00
		BIO-PBH-PLA-K2E-5mL	ROU, BBV Tested	Plasma Single Donor unit	5 mL	£33.49
		BIO-PBH-PLA-K2E-25mL	ROU, BBV Tested	Plasma Single Donor unit	25 mL	£131.50
		BIO-PBH-PLA-K2E-CUSTOM	ROU, BBV Tested	Plasma Single Donor unit	Custom quote required	

All samples shipped on dry ice as standard. HTA & REC approved, research use only.

Human Peripheral Blood & Menstrual Blood Products

Product Category	Description (Single Donor Unit)	Product Code	Regulatory Status	Sample Type	Volume	Price
Plasma	Human Plasma Peripheral blood Frozen (Pregnancy cohort)	BIO-PBH-PLA-K2E-1mL (Pregnancy cohort)	ROU, BBV Tested	Pregnancy cohort K2EDTA	1 mL	£2199
		BIO-PBH-PLA-K2E-5mL (Pregnancy cohort)	ROU, BBV Tested	Pregnancy cohort K2EDTA	5 mL	£114.99
Serum	Human Serum (Pregnancy cohort)	BIO-PBH-SER-1mL (Pregnancy cohort)	ROU, BBV Tested	Serum Single Donor unit STT II	1 mL	£23.82
Serum	Human Serum Peripheral blood Frozen	BIO-PBH-SER-1mL	ROU, BBV Tested	Serum Single Donor unit STT II	1 mL	£6.00
		BIO-PBH-SER-5mL	ROU, BBV Tested	Serum Single Donor unit STT II	5 mL	£33.49
		BIO-PBH-SER-25mL	ROU, BBV Tested	Serum Single Donor unit STT II	25 mL	£131.50
		BIO-PBH-SER-CUSTOM	ROU, BBV Tested	Serum Single Donor unit	Custom quote required	
Fresh	Human Menstrual Blood Fresh	BIO-MBH-Fresh	ROU	Fresh	~ 5-10 mL	£289.12
Plasma	Human Menstrual Blood Supernatant	BIO-MBH-MES	ROU, BBV Tested	Plasma	1 mL	£55.00
